

# Financial Hope Small Group Workshop

The Free Methodist Church in Canada

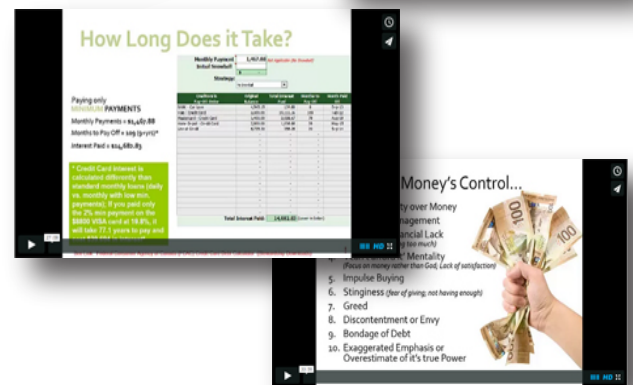

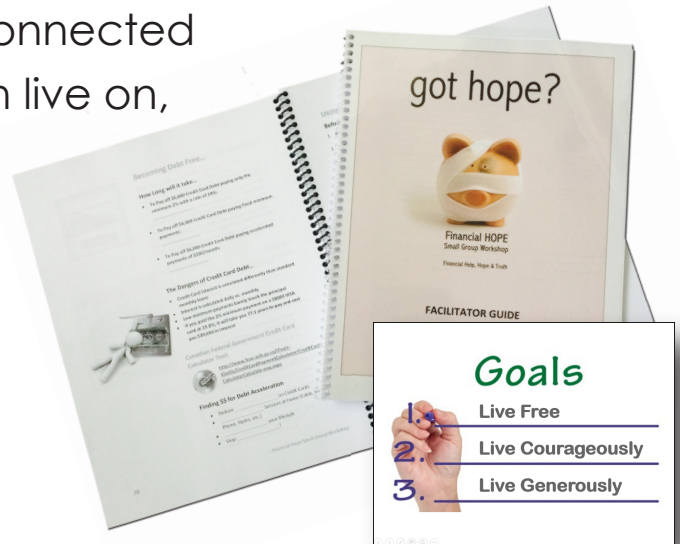

What would happen if every person connected to your church had a budget they can live on, a plan to get out of debt, and could align their use of money with their faith?

This 5-week Small Group Material provides Help, Hope and Truth in how to manage finances God's way. Together in small groups, we discuss the cultural pressures of debt and consumerism while learning biblical principles and practical tools to live within our means, get out of debt, save, determine a healthy lifestyle, set long-term goals and live generously.

Online facilitator training, PowerPoint presentations, worksheets and files are all provided upon referral of the local pastor. Facilitators will also have ongoing support via email and phone as needed.

Participant workbooks can be printed locally at the church or sent out to be printed and bound keeping costs affordable for all churches/small groups.
